The Patient's Guide to CBD is a comprehensive resource that covers a wide range of topics, including, available forms for use, what to look for on package labels, how to read a certificate of analysis, how CBD interacts with the endocannabinoid system, the current state of research, the compound's legal status, and how to talk to one's doctor about CBD.

Patient's Guide to CBD - Americans for Safe Access

If you use the S, it must be "A patient's guide", which implies that the guide is possessed by a specific patient, or "Patients' guide", which implies that the guide is for multiple patients. I would argue the latter is more grammatical, although the first seems more common. I think one could justify both.

possessives - "A patients guide" or "A patient's guide ...
