User Guide Wiki

A user guide, also commonly called a technical communication document or manual, is intended to give assistance to people using a particular system. It is usually written by a technical writer, although user guides are written by programmers, product or project managers, or other technical staff, particularly in smaller companies.

VisualEditor gives you the ability to edit without needing to learn wikitext markup, as is required by the default wikitext editor. Unlike that editor, VisualEditor will display the text being edited almost as if it were already published. This guide gives illustrated, step-by-step instructions on the editor's features, although it may occasionally lag behind the release of new ones.

One can also do a timelapse focus stacking (multiple stacks separated by a specified time interval), for two-point stacking only. Use keys "*4" to set the number of stacks $N_{\text{timelapse}}$ (if set to "1", timelapse is disabled), and "*7" to set the time interval, $dt_{\text{timelapse}}$, between the start of each stack (in seconds). If an individual stack duration is longer than $dt_{\text{timelapse}}$, then all the N ...
